|            | 2022–23 | 57%                                               |            | 2022–23 | 69%                                         |
|            | 2023–24 | 50%                                               |            | 2023–24 | 62%                                         |

Cohort Year

| Level             | 2024 | 2023 | 2022 |
|-------------------|------|------|------|
| <b>Associate</b>  | FY21 | FY20 | FY19 |
| <b>Bachelor's</b> | FY17 | FY16 | FY15 |
| <b>Master's</b>   | FY21 | FY20 | FY19 |
| <b>Doctoral</b>   | FY17 | FY16 | FY15 |

All performance measures reported above are calculated according to the following data definitions.

1 Concentrations in the BSB and MBA programs are included in the data presented for the BSB and MBA programs.

2 **150% Graduation Rate:** The percentage of students who completed their program within 150% of the published program length. Students are included in the cohort if they began a program in the degree level during the cohort year and attended for at least 30 days (consistent with IPEDS logic). Students who became deceased prior to completion were excluded from the cohort. If the student's duration in the program was less than or equal to 150% of the published program length, they were counted as graduating within 150%. Completers are reported in the program they completed; non-completers are reported in the program they began.

3 **First-Year 4th Course Retention Rate:** The percentage of students who began the respective business program in the year prior to the reporting year and attended four courses within the standard length of time to attend five courses.

4 **Waived Credits Acceptance Rate:** The percentage of students who have waived course credits accepted and applied in the beginning of their doctoral program.
